現在の作品のヒントとなった「ネパールの少年」(コラージュ)

“trip to” is an artwork series of mixed-media by Nao Morigo. “trip to” collage paintings are inspired by memories from her trips that started in 2009 with “Mr Rooster”, which is the symbol of Nao.

Nao started collecting local newspapers and paper-medias from countries she visited and in 1998, she created her first collage artwork “Nepal Boy”. She captured the moments and atmosphere onto canvas and paint on them by using the newspapers.

Starting from “Vol.1 Italy” in 2009, followed by “Vol.2 India”, “Vol.3 England”, “Vol.4 Brazil”, “Vol.5 America”, the latest “trip to...” series is “Vol.6 Kobe”, back in her hometown.

As she works on her artworks, those scenes makes her to wonder the existing concepts and thoughts. Where will Nao's artwork take you to? They may take you to the world you have never been to.
